Strategic Aim 2: Deliver Impact & Strengthen the Community

The main objectives of my studies are to build networks for collaboration and learning opportunities. To connect myself with like minded people for future engagement so I can advocate for change, educate and help my government with its efforts to become energy efficient

LASHONNA WILLIAMS, WNTI 2025 - 26 Sponsored Student

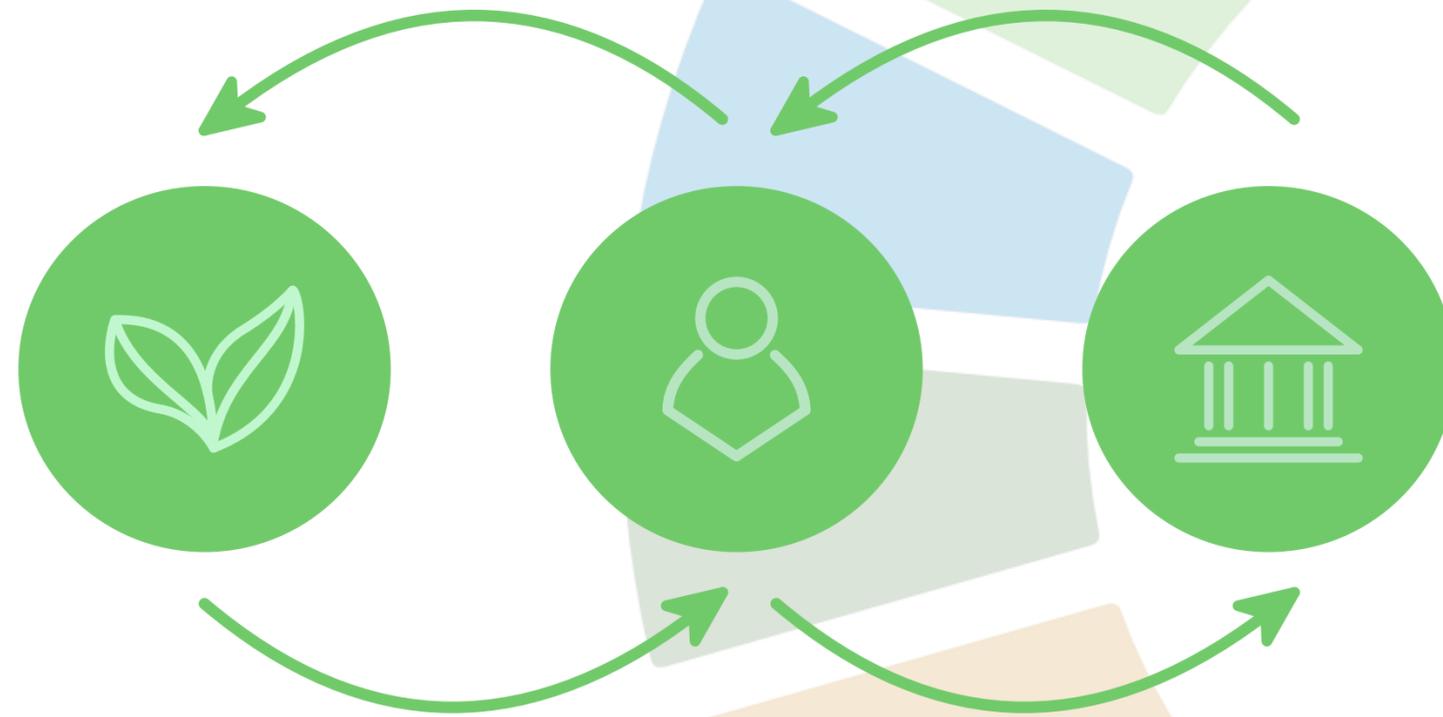

Support innovation and sustainability across the sector - helping members **adapt to future challenges** while delivering transport systems that are **resilient, low-carbon**, and ready to meet global **environmental and societal needs**.

what we do, and how we do it, matters....

...we will uphold **transparency, accountability, and member-led leadership** - ensuring our decisions are fair, informed, and in service of **our collective mission.**
